ok, it will be similar to bootstrapping the identity for the servers. it will involve running luap's program too to publish the factoid address. Let me make some directions.

 Luap**PaulSnow**

Hee @Niels

Okay, to hard code these payments, we need the following:

1. Public factoid addresses for all grants.
2. Clarity on the GDIs. Brian will post how to do this today, and this will need to be done prior to releasing the code with the hard coded grants.

I'll apologize for my schedule and the 4th delaying my response here.

Jul 5, 2018

#36

yah, the important part to get started right now is to post your factoid address where the grants should go. That will be the first step in the identity creation process, and that can kick off a lot of other things in the code.

I will kick it off.

Factom Inc. Guide Factoid Address: FA2teRURMYTdYAA97zdh7rZDkxNtR1nhjryo34aaskjYqsqRSwZq

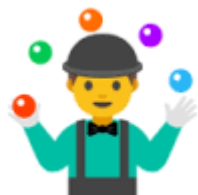

Protocol Development Grant Factoid Address:

FA3LwCDE3ZdFkr9nE1Keb5JcHgwXVWpEHydshT1x2qKFdvZELVQz

Anchor Master Grant Factoid Address: FA3jySUFtLXb1VdAJJ5NRVNYEtZ4EBSkDB7yn6LuKGQ4P1ntARhx

Oracle Master Grant Factoid Address: FA3fpiZ91MCRRFjVGfNXK4pg7vx3BT3aSRyoVqgptZCX7N5BNR8P

These should also be posted over in discord to avoid a single compromised server from redirecting payment.

We will verify and validate addresses again, prior to deployment of code as well.

I wrote the Guide Compensation Grant which includes payment for others as well. But my personal FCT address where my portion of that grant should go is:

David Chapman Guide pay: FA22C7H844H5TrWNyXerqp6ZAvdSxYEEUNZxexuZbLnBvcxTobit

@KiwiWithLazerEyes Do you have an example moving average spreadsheet that we can leverage?

Jul 11, 2018

#47

What source are we using? Something like tradingview + bittrex is easy, just use MA(timespan) indicator.

**Julianft**

Guide

DBGrow

Coinmarketapp we'd probably calculate by hand, but that's easy, just have to define time span and closing interval.

#49

@[briandeery](#) Because I have one of the \$-denominated grants, I should probably refrain from setting the source/method on this one. Especially as its so simple and there are plenty of other people here who can do that

#53

@Luap Private Buyers / Firms negotiated to take FCT as payment (And even not liquidate, same with private buyers). It's been a lot of work but we are going for 0 tokens liquidated, and might just make that happen.
