

Factom Community Testnet

ANO applicant:

Gamix

The applicant joined the Factom Community Testnet on:

N/A (Pre Portainer setup)

Nodes and responsiveness:

The applicant is currently running **0** on the Factom Community Testnet of which **0** are part of the authority set.

During their time on the Factom Community Testnet I've rated their responsiveness to updates and helpfulness during network outages (from 1 to 5 with 0 meaning not assessed, 1 being unacceptable and 5 being outstanding): **0**

General comments:

After the first round they removed their nodes. They have recently been working on getting back on the testnet but have required considerable support and are still pending getting added back. As other entities have joined I suspect they have a problem in their own setup and with their own procedures.
