

Factom Community Testnet

ANO applicant:

Cube3 Technologies

The applicant joined the Factom Community Testnet on:

2018-06-26

Nodes and responsiveness:

The applicant is currently running **2** on the Factom Community Testnet of which **1** are part of the authority set.

During their time on the Factom Community Testnet I've rated their responsiveness to updates and helpfulness during network outages (from 1 to 5 with 0 meaning not assessed, 1 being unacceptable and 5 being outstanding): **4**

General comments:

Cube3 while fairly new on testnet have been running 2 stable servers which they didn't require much help to set up and one server is currently part of the Authority set. While it's only an audit they have still elected to use brain swap for upgrades and I have not noticed any other downtime.
