

# Factom Community Testnet

## ANO applicant:

Federated Reserve & Prestige IT

## The applicant joined the Factom Community Testnet on:

Pre Portainer setup

## Nodes and responsiveness:

The applicant is currently running **5** on the Factom Community Testnet of which **2** are part of the authority set.

During their time on the Factom Community Testnet I've rated their responsiveness to updates and helpfulness during network outages (from 1 to 5 with 0 meaning not assessed, 1 being unacceptable and 5 being outstanding): **2/4**

## General comments:

The combined team of Federated Reserve and Prestige-IT have been on testnet since April. Prestige IT have generally been quite good keeping their nodes updated and have used brain swaps being part of the Authority set. Federated Reserve have however been very slow to respond to requests for updates and have often been behind in updates.
