

# Factom Community Testnet

## ANO applicant:

De Facto

## The applicant joined the Factom Community Testnet on:

Pre Portainer setup

## Nodes and responsiveness:

The applicant is currently running **3** on the Factom Community Testnet of which **2** are part of the authority set.

During their time on the Factom Community Testnet I've rated their responsiveness to updates and helpfulness during network outages (from 1 to 5 with 0 meaning not assessed, 1 being unacceptable and 5 being outstanding): **5**

## General comments:

Ilzheev has been on testnet since early in the testnet history and have been very active in the community including functioning very well as my deputy since election in May. He's always been very helpful and have developed the monitoring solution for testnet. He's been updating nodes very quickly and have been helping testing early release candidates. He's been running Authority nodes and have substantial experience with brain transfers and also non-standard setups.
