

Factom Community Testnet

ANO applicant:

Block Conex

The applicant joined the Factom Community Testnet on:

2018-05-12

Nodes and responsiveness:

The applicant is currently running **2** on the Factom Community Testnet of which **0** are part of the authority set.

During their time on the Factom Community Testnet I've rated their responsiveness to updates and helpfulness during network outages (from 1 to 5 with 0 meaning not assessed, 1 being unacceptable and 5 being outstanding): **4**

General comments:

Block Connex was one of the first to migrate to the new portainer system and I have not observed any issues during their time on testnet. They've not run any authority set server though and both followers are on a generic identity so they haven't been using and getting experience with brain transfers/swaps during upgrades. They have however been upgrading within the required timeframes
