Factom Community Testnet

ANO applicant:
Consensus Networks

The applicant joined the Factom Community Testnet on:
2018-08-07

Nodes and responsiveness:
The applicant is currently running **1** on the Factom Community Testnet of which **0** are part of the authority set.

During their time on the Factom Community Testnet I've rated their responsiveness to updates and helpfulness during network outages (from 1 to 5 with 0 meaning not assessed, 1 being unacceptable and 5 being outstanding): **0**

General comments:
As Consensus Networks was a last minute addition to the reports I haven't had enough interaction with them to judge their responsiveness. Managed to setup the instance without any help required but forgot to add the conf file so the node has been building it's own chain.
